

30 DAY FACIAL BOOT CAMP

ARE YOU READY ?

Asaadi's 30-Day Facial Boot Camp is a truly unique experience in skin care. Through science and research, in-office exfoliating treatments combined with appropriate home care products have been shown to improve elasticity, reduce pore size, control breakouts, repair fine lines, reverse sun damage and improve skin health. Dr Asaadi has selected highly effective methods and products that deliver pure active agents to the areas of the skin where they can be most helpful in repairing and restoring a youthful appearance.

30-Day Facial Boot Camp, you will receive

- 5 complete exfoliation treatments
- 5 chromatherapy treatments
- 30 days of appropriate products to apply daily at home between treatments

Each in-office treatment will be performed every 7 days. Many experience skin improvements after the first treatment. Your skin will be healthier and have a more youthful appearance, giving you that "lift," in only 30 days.

Asaadi's 30-Day Facial Boot Camp is about results. Whether you have hyper pigmentation, large visible pores, or a dull surface that needs a boost, we believe your satisfaction is only 30 days away.

With the Facial Boot Camp there is both a starting and ending date. During that time, you and our Medical Aesthetician Lisa will assess your skin's condition and design a custom maintenance program for you to follow.

The "New You" will be noticed by your family and friends before the 30-Day Facial Boot Camp is completed.

Healthy Skin In 30 Days

Youthful Healthy Skin could not be any easier!
