

About

Dr. Mokhtar Asaadi

Double board-certified plastic surgeon Dr. Mokhtar Asaadi says his biggest critic is himself, and he wouldn't have it any other way. His philosophy: "If you are a perfectionist and you want to get the best results for your patients, you have to find better ways to achieve their goals. If something isn't right, do it again until it is perfect. Patients appreciate the extra time you spend." Patient safety is also of utmost importance to Dr. Asaadi. "Cosmetic surgery is elective; there's no way I'd ever compromise a patient's well-being." Dr. Asaadi completed his post-doctoral training at Memorial Sloan Kettering Cancer Center, Southern Illinois University, Manhattan Eye, Ear and Throat Hospital and Saint Barnabas Medical Center in New Jersey, where he currently serves as Chairman of the Department of Plastic Surgery.

"It's all about the eyes!"

A Bright New Look

Unhappy with the under-eye bags and hollowness that made her look tired, this 64-year-old patient sought Dr. Asaadi for his unique approach to blepharoplasty.

Rejuvenated Eyes

This 67-year-old patient underwent Dr. Asaadi's signature upper and lower blepharoplasty technique to correct under-eye bags and puffiness that aged him.

What is your surgical niche?

I am best known for my beautiful results with lower blepharoplasties and the correction of the festoons, also known as malar bags.
